Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want quick answers. • I need easy explanations. • I forget concepts quickly.	THINKS • AI can help me study better. • I need personalized learning. • I want to score good marks.
Vyshnavi B.tech Student	
DOES • Watches YouTube videos. • Searches on Google. • Uses AI tools for studying.	FEELS • Confused before exams. • Stressed due to syllabus. • Happy when doubts are cleared.
